

ASM Technologies Limited to Work with Oracle to Co-Develop Next Generation Oracle Fusion

Bangalore, India, March 21, 2013: ASM Technologies Ltd (ASM) announced today it will work with Oracle to co-develop Oracle Fusion Value Chain Planning applications. ASM, a Gold level member of Oracle Partner Network (OPN), is one of several members of OPN that will provide engineering and functional resources to assist in the development of the next generation of Oracle Fusion Value Chain Planning applications.

Under this initiative, ASM will work on two separate co-development projects for the next release of Oracle Fusion Value Chain Planning applications.

"A large investment in our best-in-class Oracle Fusion Value Chain Planning applications enables ASM to get detailed functional and technical knowledge about our next-generation cloud-based products, and be ready to support customers during their implementation," said Roger Goossens, Vice President, Value Chain Planning Development, Oracle. "It is critical to our strategy to engage partners in the development of our next generation of products, and we benefit from their real world experience and domain knowledge."

"Our team is excited to work on these co-development projects for Oracle Fusion Value Chain Planning with the Oracle team," said Narayana Krishnan, Sr. Vice President, Business Development, ASM. "This is a significant investment in Oracle Fusion, both benefiting Oracle and preparing our consulting team with the depth of knowledge they require to deploy these new products."

ASM is a leading global consulting firm for Oracle Supply Chain Management products, including Value Chain Planning applications. ASM offers a full range of services including business process design, implementation, and a comprehensive managed services program for Supply Chain Management Planning as a Service.

ASM Tech partners Oracle

Bangalore, April 3

ASM Technologies has partnered with Oracle to co-develop Oracle Fusion Value Chain Planning applications, a kind of software used by mid-size companies. As a part of this initiative, ASM will work on two separate co-development projects for the next release of Oracle Fusion Value Chain Planning applications. Bangalore-based ASM is one of the key members of Oracle PartnerNetwork (OPN) and a provider of supply chain solutions used by transportation, logistics and other companies will provide engineering and functional resources to assist in the development of the next generation of Oracle Fusion Value Chain Planning applications.

According to Narayana Krishnan, Senior Vice-President, Business Development, ASM, the company is making 'significant' investments in Oracle Fusion, which benefits both companies. "It prepares our consulting team with the depth of knowledge they require to deploy these new products and helps Oracle quicken its go to market strategies," he added. "It is critical to our strategy to engage partners in the development of our next generation of products and we benefit from their real world experience and domain knowledge," according to Roger Goossens, Vice-President, Value Chain Planning Development, Oracle. — **Our Bureau**
